SYNOPSIS

BRIEF DESCRIPTION
This subject analyses the differences between corporate consumers and final consumers, that is, the analysis of all type of organizations (firms, institutions, foundations, etc.) which use products in their activity as consumables, equipment, services or even components which take part in a line to its later transformation. We focus on the tools and practices that a company develops and employs when it wants to market other companies (B2B Marketing), underlining all its different features and their impact over the design and plan of marketing activities.
PRE-REQUIREMENTS
There is no previous knowledge required.
AIMS & OBJETIVES
